Dear Mr. Tidwell

On February 23, 1991 I received a letter from you on the gypsum mine in Gardner Canyon. Referring to mine reclamation to the division of oil, gas, and mining of the state of Utah. As you know the plan I submitted to you on 7-13-90 is the plan and the only plan I submitted. It calls for approximately 2½ acres and does not constitute a large mine plan by the state. Therefore, the state does not need more information and you should start immediately to approve this plan.

The letter to the division of oil, gas, and mining as of November 26, 1990, sent by you, is not applicable and should be disregarded by the state.

Respectfully submitted

Robert L. Steele  
Owner of the Nebo Gypsum Mine  
and the Patented Claims it is on
